

Application of Guam Cable Group, Inc. ("Guam Cable") to provide facilities-based and resold services to all international points, and ISR service to all authorized destinations.

Attachment 3

Additional Information

Applicant Guam Cable is a wholly owned subsidiary of Startec Global Operating Company ("Startec Operating"), which itself is a wholly owned subsidiary of Startec Global Communications Corporation ("Startec Global").

On December 14, 2001, Startec Global, Startec Operating, and another wholly owned subsidiary of Startec Global, Startec Global Licensing Company, filed for bankruptcy protection under Chapter 11 of Title 11 of the U.S. Code in the U.S. Bankruptcy Court for the District of Maryland (Greenbelt Division) (the "Bankruptcy Court"). See In re Startec Global Communications Corp., et al., Case No. 01-25013 (DK). Startec Global and its debtor subsidiaries each continue in possession of their property and management of their businesses as a debtors-in-possession pursuant to Sections 1107 and 1108 of the Bankruptcy Code.

Under the terms of a Disclosure Statement and Plan of Reorganization submitted to the Bankruptcy Court on June 14, 2002 (the "Plan"), Startec Global and its subsidiaries will be reorganized and reincorporated as new Delaware corporations, with the reorganized Startec Global continuing as the sole equity holder of the subsidiaries.

Under the Plan, 90% of the equity in the reorganized Startec Global would be held by Allied Capital Corporation ("Allied"), with the balance to be shared by other secured and unsecured creditors and holders of pre-petition debt. The Plan must be voted on and approved by the creditors of Startec Global, and then confirmed by the Bankruptcy Court.

On September 25, 2002 Startec Global, its subsidiaries, and Allied submitted an application to the Commission requesting approval, pursuant to the Plan, of the assignment of, and of the transfer of control of entities holding, certain international section 214 authorizations, interests in cable landing licenses, and domestic section 214 authorizations. See FCC File Nos. SCL-ASG-20020925-00097, ITC-T/C-20020925-00528, SCL-ASG-20020925-00098, ITC-T/C-20020925-00529.

On November 15, 2002, Startec Global and its affiliates advised the Bankruptcy Court that certain issues had arisen among its creditors that will likely require modification of the Plan. Accordingly, the Startec Global sought, and the Bankruptcy Court has granted, a postponement of the confirmation hearing, originally scheduled for December 9-10, 2002. The hearing was initially rescheduled for April 1, 2003. It has since been rescheduled again, and will now occur on August 6 and 11, 2003. Negotiations over the final form of the Plan continue. At present, it is unclear when and how these negotiations will conclude.

The information, statements and representations in this application are accurate and complete as of the date of its filing. Given the uncertainty surrounding the Plan, Guam Cable

cannot say with certainty what its ultimate corporate structure, or those corporate structures of its parent entities, will be. Accordingly, Guam Cable acknowledges its responsibility to amend this application in light of future developments, or to submit such further applications as may be made necessary by future developments if the Commission, as anticipated, grants the authorization requested herein before negotiations over the Plan conclude.
